

Strawberry pattern

Technique: krokbragd / boundweave

Warping scheme

Warping

- Warp H1 as heddled layer
- Warp H2, H3 and H4 as unheddled layer

Putting the unheddled threads in the right order

- Put H2, H3 and H4 on popsickle sticks in the order as drawn in the warping scheme, so the first thread on H3, the second on H2 and the third on H4. Make separate heddle sets.
- The red threads for the borders runs through two heddle sets, so the first red thread through H1 and H3 and the second one through H2 and H4 (indicated by the * in the warping scheme).

Weaving

The weaving sequence is H1 - H2 - H3 - H4 - H3 - H2. Repeat this.
